

Darwin

Darwin is one of the most handsome boys you will ever meet. All the girls at the shelter are falling for him. Unfortunately, no one has been able to take him home yet. This neutered Himalayan never wants anything more than just head pets and some love and will politely come up to you and tug on the bottom of your pants for some. He would make a great addition to any family and would be a great friend for any child. He is litter box trained and needs a home. Come down to the shelter and meet him. He is guaranteed to win your heart over

Hoppy Holidays

The holidays are almost upon us and this time of year is filled with gifts, food, family, and cozy evenings in the home of a loved one. And just like us, the BUNS bunnies would enjoy all of these comforts too.

Just like us, bunnies love gifts. Here are some gift ideas for our shelter bunnies:

- Christmas carrots for 50 \$ 30.00
- Mats and chew baskets for 50 \$ 60.00
- One spay/neuter \$100.00
- Sponsor a hutch for a year \$250.00
- Medical bills for a badly injured/sick bunny \$500.00
- A forever home Priceless
- A volunteer to care Priceless

If there was ever a bunny that could win your heart over, it's *Tango*. This neutered boy was dumped as part of a litter of 8 baby bunnies and has been hoping someone would give him the love that babies so crave and need. He is very sweet and would make a great friend for a child. He is litter box trained and would love to be part of your family.

This poor neutered boy has never really known what it's like to have a home. Having been bought at a pet store, *Luke* was only kept for a few weeks before his previous owner had to give him up. Despite everything he's gone through, his love for people has never changed. He will run up to you to get your attention and look at you with his adorable face. One look at him will make you fall in love with him. Luke is learning to use his litterbox and is waiting for you at the shelter.

Poor *Katrina* was dumped with two brothers and a sister - all who got adopted within weeks of coming into the shelter. Now it's just her left and she has been very lonely. She usually sits in her pen with her head down, sadly asking anyone who walks by for pets. She is spayed and litter box trained and would love to be part of your family. Can you give her the love and attention she needs?

Bunnies Urgently Needing Shelter is a not-for-profit corporation dedicated to finding safe loving homes for abandoned rabbits in Santa Barbara County.
